DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 12-14, 15, 18, 26, and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 12 recites the limitation "the second VLAN". There is insufficient antecedent basis for this limitation in the claim.

4. Claim 18 recites the limitation "the selected port". There is insufficient antecedent basis for this limitation in the claim.

5. Claims 12-14, and 26 are rejected for being unclear as it is not easily understood which port ("port of a networking device" vs. "selected port") is being referenced in the conditions of the limitations concerning allowing and disallowing port membership. The claims as presented ambiguously reference "the port membership", but it cannot be readily ascertained which of the networking device port or selected port the condition is referencing.

6. Claims 15 and 27 are rejected for being unclear as it is not easily understood which port ("port of a networking device" vs. "selected port") is being referenced in the conditions of the limitations concerning allowing and disallowing port membership. The claims as presented ambiguously reference "the port membership", but it cannot be

readily ascertained which of the networking device port or selected port the condition is referencing.

7. Claim 18 contains a period (.) after the claim limitation beginning "disallowing the change", and continues to list additional claim limitations following the period.

Additionally, claim 18 ends with "and". The presentation of claim 18 does not clearly point out the invention of Applicant.

Allowable Subject Matter

8. Claims 2-10, 19-22, and 25 are allowed. As noted in the previous Office Action mailed 01/15/04, the prior art does not fairly suggest the limitations set forth in the claims objected to for having allowable subject matter but depending upon a rejected base claim. Examiner acknowledges Applicant's amendment to rewrite the certain limitations from the claims into independent format.

9. Claims 12, 14, 15, 18, 26, and 27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2144

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
